

Respitech

A Smart Medical Company

Comprehensive Support for Your Patients' CPAP/BiPAP Therapy Needs

Providing Experienced, Face-to-Face PAP Therapy Support

Have you determined your patient needs a CPAP or BiPAP machine? Respitech offers an extensive PAP program to support both you and your patients with personalized, expert care.

In-Office Services:

- Explaining the dynamics of sleep apnea (obstructive, central, mixed), its symptoms, and risks if untreated
- Reviewing sleep study results, including AHI (Apnea-Hypopnea Index) severity
- Providing detailed education on PAP therapy modes (APAP, BiPAP, CPAP)
- Helping patients select the most suitable mask and fit
- Demonstrating PAP device features and therapy use
- Guiding patients through their first therapy session

Timeline:

- **1.5 hours** for new setups
- **1 hour** for replacement devices

Virtual Options Available!

We also offer telehealth setups to ensure patients receive the same comprehensive care remotely, following a similar approach to our in-office services.
